Research and Reproduction Fees

The Framingham History Center is committed to making its collection accessible to researchers, students, educators, and the general public. In an effort to support these services and maintain the integrity and preservation of our collections, the Framingham History Center has established a fee structure for research and reproduction services. We never wish cost to be a barrier to access, so please contact us at info@framinghamhistory.org to discuss alternatives as needed.

Research Fees

Rate: $25/hour* (General Research) / $40/hour (Deed Research)

This fee covers the time the FHC Research Team spends accessing, handling, and consulting on collection items for researchers. This includes preliminary searches, object retrieval, and any necessary documentation. Deed research incurs an additional expense because it requires external database research.

*FHC Members, students, educators, seniors, and military receive the first two hours of general research or 1 hour of deed research free of charge.

Reproduction Fees

The cost of reproductions varies depending on the type, size, and quantity of the items requested. Reproduction fees are separate from research fees.
